

Guillaume Dumas

React, TypeScript, APIs and real-time web apps, with enough backend awareness to understand the whole flow.

ABOUT

Frontend developer from Grenoble, trained at 42 Lyon after a first career in high-end leather craft. I like work where the UI has to make real data understandable: dashboards, trading screens, internal tools and API-connected flows.

I care about mobile behavior, loading states and the small defects users feel before they can name them.

EXPERIENCE

Jupiter

Early 2026

Frontend Consultant - Remote

Frontend work on Jupiter Predict, a live market product inside a large React and TypeScript codebase.

- Reworked activity, For You, live option and leaderboard screens.
- Improved chart behavior, payment UI and desktop/mobile states.

Adrena

Late 2025

Frontend Intern - Remote

Joined a trading product team and shipped roughly 30 merged PRs across UI, swaps and small API work.

- Reworked trading UI, token selector, staking leaderboard and ALP screens.
- Integrated Jupiter swaps, campaign UI and mobile layout fixes.

Versus

2024 - 2025

Founder & Developer - Remote

Built a real-time betting product with Frensurfer around live AI fighting matches. Public test: 100+ testers, around 150 SOL in total volume.

- Owned the Twitch scraper, oracle and cross-service repo work.
- Handled timing bugs, invalid matches, refunds and payout paths.

42 Lyon

Late 2023 - Mid 2025

Common Core Graduate - Lyon, France

Completed the peer-reviewed 42 Common Core through low-level, systems and web projects.

- Built projects in C, C++, Unix, networking, graphics and Docker.
- Finished ft_transcendence: WebSockets, tournaments and a custom TypeScript SPA.

Magicake / Doge Capital

2021 - 2024

Founder, Board Member

Built product, community and strategy experience around digital projects and online communities.

- Handled communication, operations, business development and strategic decisions.

HARD STACK

- TypeScript
- JavaScript
- React
- Next.js
- Tailwind CSS
- Node.js
- Fastify
- REST APIs
- WebSockets
- PostgreSQL
- Docker
- Git
- Solana
- Web3.js
- C
- C++

SOFT SKILLS

- Product sense
- Ownership
- Communication
- Code review
- Mobile-first mindset
- Attention to detail
- Business insight
- Community building

PREVIOUS CAREER

Tali

2022 - 2023

Independent Leatherwork Consultant

Hermes

2017 - 2021

Leather Artisan

EDUCATION

42 Lyon
